"Portable Walkway and Canopy Systems"

Modular Canopy and Walkways Systems Introduction

Mobile Walkways, Inc. is a manufacturer of portable or permanent walkway and canopy systems consisting of roll form panels and one-piece rigid columns and beam assemblies. The cover including all column and beams can be removed, relocated, and reused at a different site. Our system can be used in wind zones of up to 146 MPH, **No Concrete Necessary.**

The complete system is "Pre-Engineered" and can be **Re-Located** without the use of heavy machinery. Components are lightweight, very strong and pre-manufactured in modular sections.

Full Service Rental and Sales Systems Complete with Installation and Relocation Services:

1. **Re-Locatable**
2. **Pre-Engineered**
3. **Non-Combustible**
4. **No-Concrete Necessary**
5. **Installs in Hours**
6. **Temporary or Permanent**
7. **No Heavy Machinery Needed.**
